Congressman Harry Teague Announces $967,000 for Wastewater Plant Improvements
Silver City will Receive Funds for Improvements Throughout Grant County

Washington, DC-Congressman Harry Teague announced today that the town of Silver City will receive $967,000 for wastewater plant improvements within Grant County. The funds were awarded through the Environmental Protection agency.

"Grant County has been hit particularly hard by recent mine layoffs," said Congressman Harry Teague. "This critical funding will create jobs while making a long-term investment in the community's infrastructure."

Projects for this grant award includes rehabilitating aeration basins and retrofitting aerate digesters. Additional activities involved in the project include upgrading preliminary treatment facilities, constructing countywide septic receiving station for processing and treating the wastewater.
